Christmas hanging wreath

Equipment needed

- Paper plate
- Scissors
- Red and green tissue paper
- Green paint
- Glue brush
- Ribbon
- Pipe cleaners x2
- Glitter

Whole punch

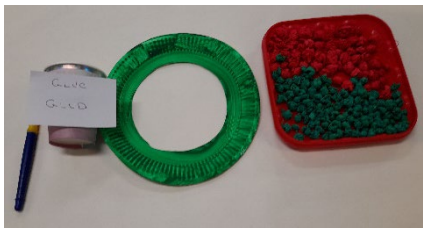
Method

1 Cut the middle out of the plate with a pair of scissors.

2 Paint the plate with green paint- using a paint brush and leave to dry.

3 When dry- use red and green tissue paper. Rip the tissue paper into small balls-enough to cover the plate-cover the plate with half green and half red.

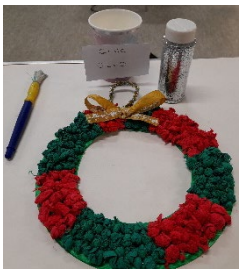
4 Using glue and a brush- cover the plate and then stick on the small balls of tissue paper, going all around the plate till complete.



5 Using the ribbon cut off a small piece and make a bow, then stick down on the top of the plate using glue and a brush.

6 Make a hole in the top of the plate using a whole punch, and feed the combined pipe cleaners through and make a loop ready to hang up.

7 Cover the wreath in as much glitter as wanted, using glue, glitter and a brush.



You have now completed your Christmas wreath
