CO18192 - Adamsdown Modal Filters

Junction of Beresford Road, Spring Gardens Terrace and Pearl Street

Description of Scheme Proposal

The Council is informing residents about plans to make changes to the highway.

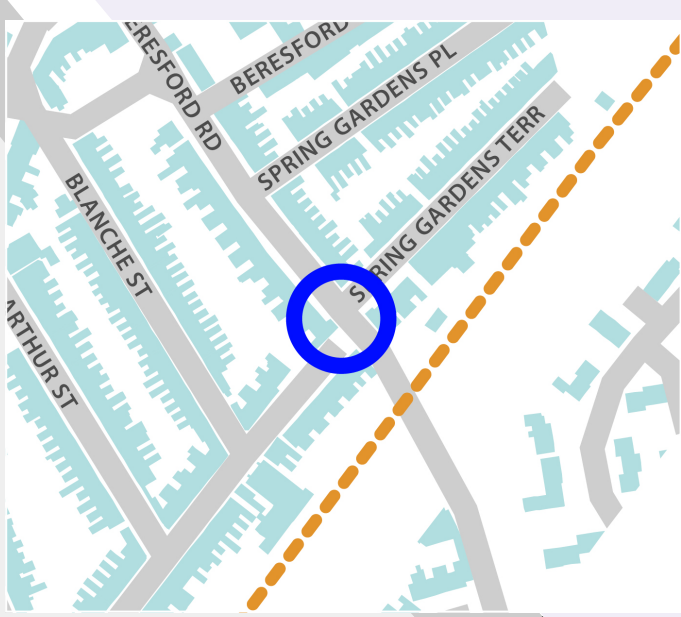

The highway proposals include the construction of cycle-only modal filters and dropped kerb arrangements, as well as relaid paving and pedestrian crossing points at road ends. This scheme is number 6 of seven across Adamsdown and the attached plan shows the area concerned.

This scheme has therefore been developed to:

- Provide continuity of cycle movement throughout Adamsdown
- Improve pedestrian facilities
- Refresh the public realm

We would appreciate any comments you may have regarding the proposals. We understand you may have suggestions for other improvements in these areas. Due to funding constraints we may be unable to accommodate any significant changes to these plans at this time, however we will keep a record of any suggests we receive to incorporate into future schemes.

If you would like to make any comments about this proposal please let us know by 24/02/20 by email to cycling@cardiff.gov.uk or write to Cycling, Room 301, County Hall, Cardiff, CF10 4UW

Croesfan arfaethedig nas rheolir
