

String pots

What you need

Clean tin or container with or without lid

String, twine or wool

Double sided tape

Scissors

What you need to do

Ensure no sharp edges on tin.

Soak tin in warm water and remove label.

Stick double sided tape along top, bottom and side of container.

Pull tape off bottom and side of tin leaving top on.

Fix string at bottom of tap, wind around container, pushing string down, so secure, tight and against itself.

When near top, pull top off double tape, and wind string to top.

Cut off string when tin covered.

Put double tape over the lid.

Pull off top of tape.

Fix string on outer rim and wind into middle.

Cut off string, when reach middle
